

## Big Questions

- Who are we now?
- What do we love about this church?
- Who do we want to become?
- What facility use aligns with who we are and who we want to become?
- What ministry aligns with who we are and who we want to become?
- What resources and scaffolding can we put in place now to sustain this community into the future?

Over four meetings and two working group sessions, we will dig into these questions, talk with our neighbors, and plan a path forward.

All members and interested community members are invited to a series of conversations to clarify our long-term goals for our congregation and facilities. Please join us with an open heart and sense of humor!
